Meeting Objectives

Purpose: Introduce CRRi and explore what we can do that's most useful to help strengthen the indigenous technical role in collaborative chinook rebuilding.

Objectives: Start building a shared understanding of the context, challenges and opportunities for collaborative planning and project delivery, including:

- The new Fraser Salmon Collaborative Management Process
- Key DFO programs & initiatives
- Key examples of indigenous work & capacity.
- Support dialogue that begins to identify shared objectives, priorities and next steps for building technical collaboration in this work.
